CLUB MANAGEMENT FOR YOUTH SPORTS

# Run your whole club from one app.

Schedules, attendance, payments, rides and team chat — for coaches, players and parents.

# Ditch the spreadsheets.

Attendance sheets, fee spreadsheets, group chats and ride lists — Scout brings them into one app the whole club already carries.

## 01 Everything in one place

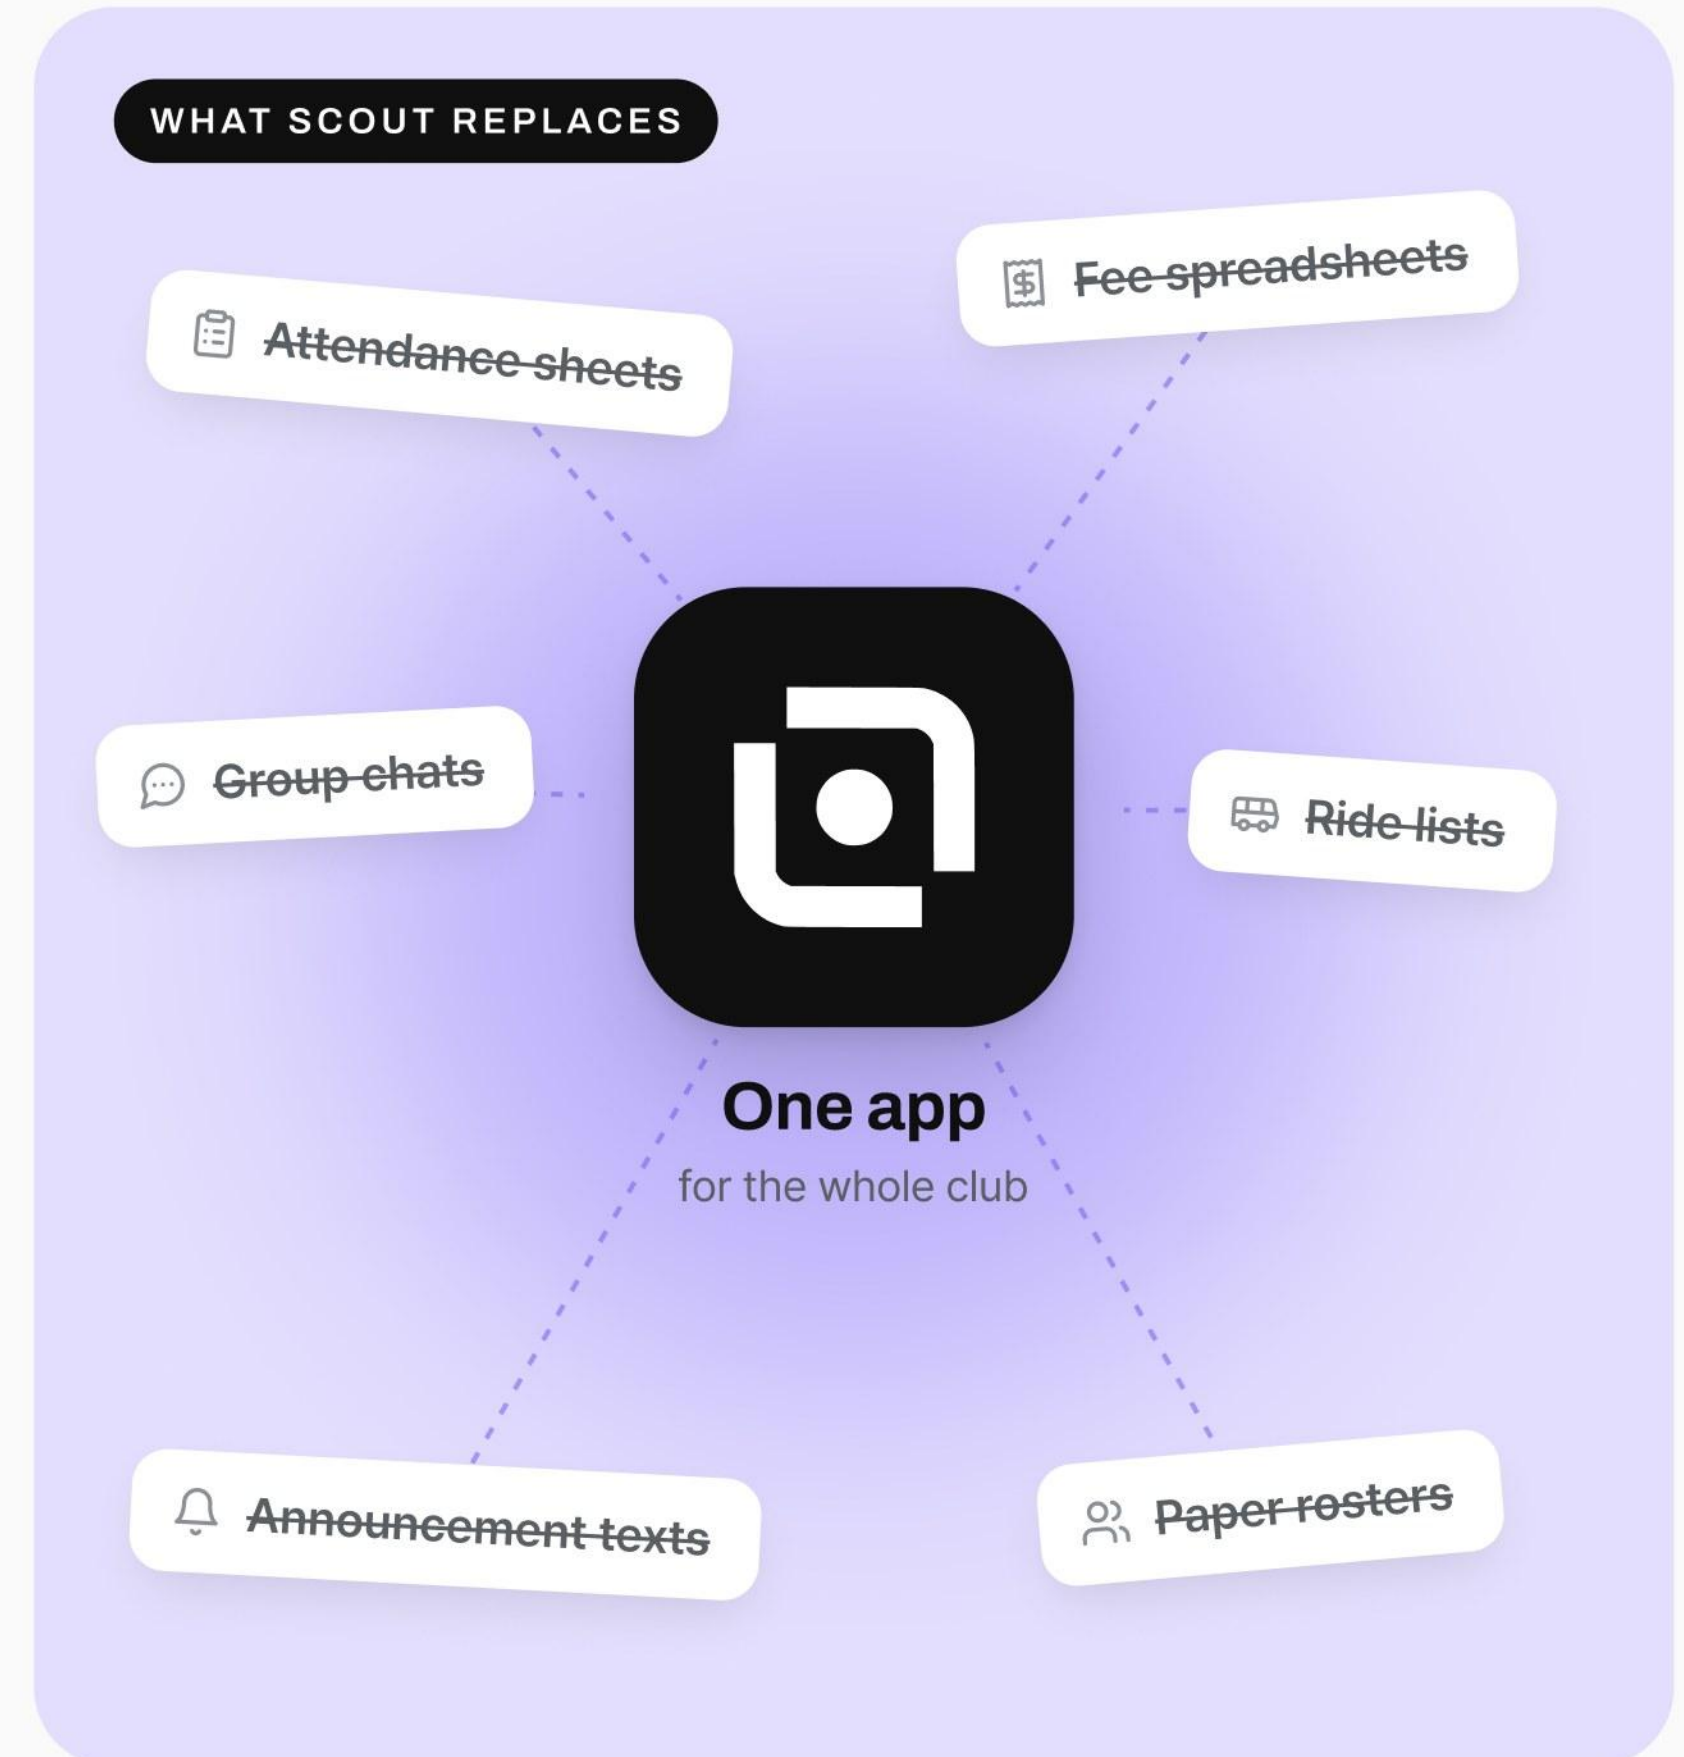

Players, schedules, fees and rides, managed in a single app.

## 02 Same staff, more players

Automate the repetitive work so your coaches can look after more players.

## 03 Every team under one club

Add teams and age groups as you grow — all in one club account.

# One app. Every role.

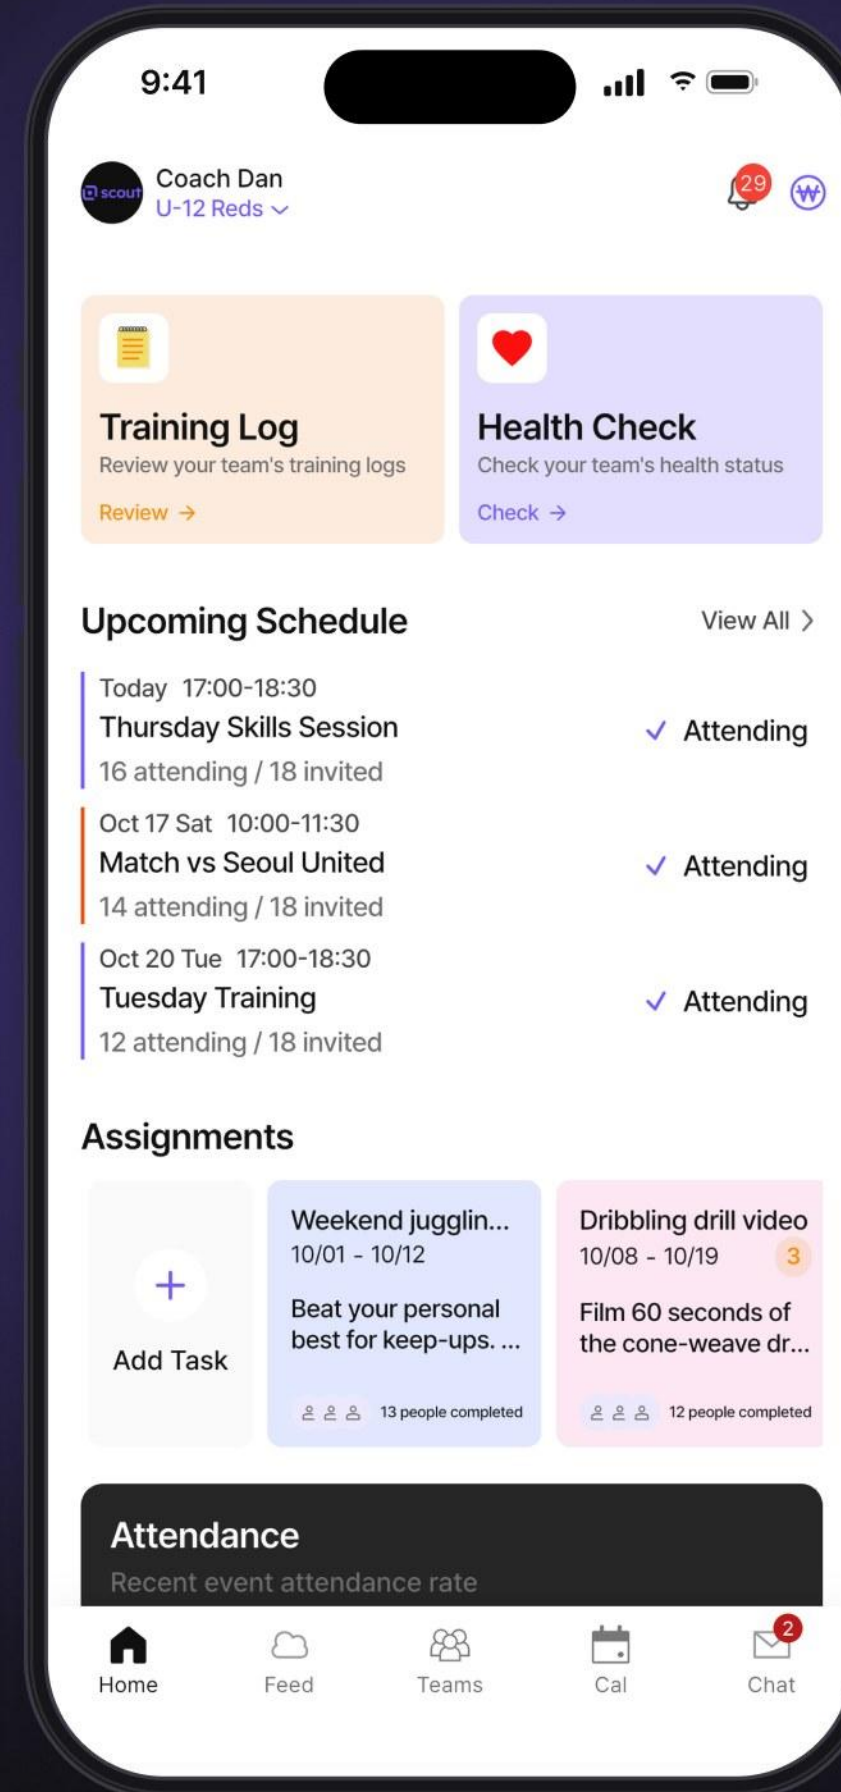

Coaches, players, parents and club admins each see what matters to them — in English or Korean, on iOS and Android.
